We all have our favorite music. The lyrics and melodies of songs can uplift, inspire, soothe, and invigorate us. Everything we surround ourselves with can lower or raise our vibration. Sri Harold shares this tip:

"If, at some point, you need an edge for health or for peace of mind, look to what's coming into your world. Look to your form of music, or your form of news. Be aware of whatever ways you let the external world into your internal world..."

This influence can be for either beneficial things or harmful things. So the choice is yours."
